2. In the letter of September 27, 2022 under reference, the University of Lagos (UNILAG) stated as replicated below:

- a. **"Background:** The Africa Center of Excellence (ACE 1) Project was instituted in 2013 by the Governments of Nigeria, Ghana, Benin Republic, Togo, Burkina Faso, Cameroun and Senegal with support from the World Bank, to promote regional specialization amongst participating universities in the West and Central Africa sub-region within disciplines that

- address particular common regional challenges. However, the 2nd Africa Higher Education Center of Excellence (ACE IMPACT) Project was launched to consolidate on the gains of ACE 1, and it saw the emergence of new players like Niger, Guinea and Togo (all from West Africa) and Djibouti (from East Africa). The objectives of ACE Impact included to improve on the quantity of students enrolled in postgraduate programmes and improve on the quality of postgraduate programmes such that students can acquire the necessary theoretical knowledge and applied skills upon graduating. The project also aimed at improving the development impact of postgraduate education in selected universities, through regional specification, such that the knowledge from research and skills acquired by graduates will be able to directly address the development challenges in the regions;
- b. The Federal Government of Nigeria (FGN) and the International Development Agency (IDA) of the World Bank (WB) entered into a credit agreement (Credit Number 6510NG) to finance the ACE Impact project. To implement the project, the Government of Nigeria has secured US\$115 million, with the World Bank contributing \$75 million and the French Development Agency (AFD) providing \$40 million for the 17 ACE Impact Centres and the NUC;
 - c. The National ACE Project Coordination Unit (NAPCU) domiciled at the National Universities Commission (NUC) is responsible for the national project facilitation, training, and supervision in fiduciary aspects as well as national Monitoring and Evaluation (M&E) and minor Technical Assistance (TA) in Nigeria;
 - d. To this end, the Africa Centre of Excellence for Drug Research, Herbal Medicine Development and Regulatory Science (ACEDHARS), domiciled at the University of Lagos, Lagos State is responsible to build capacity within West Africa's tertiary educational system for implementing high quality training and applied research;
 - e. **World Bank Funded Project: 1\$ Equal to N414:** The World Bank had approved the sum of \$469,000.00 (₦197,486,520) for the purchase of new Laboratory/Research Equipment and \$75,559.19 (₦31,281,426.00) for the purchase of project vehicle. Furthermore, it is imperative to add that the World Bank will be coming for Mid Term review Visitation/Inspection and commissioning of the project laboratory in November, 2022 and it is expected that the new equipment and should be in place before the scheduled Visit. This also will enable the Centre commence teaching activities for the 2021/2022 batch of students admitted by the African Centre of Excellence for Drug Research, Herbal Medicine Development and Regulatory Science (ACEDHARS) at the University. The allocated laboratory space for the ACEDHARS project funded by the World Bank is presently not conducive and adequately equipped to carry out research and teaching activities due to the growing activities of the project and thus, need to be well equipped to accommodate the increasing number of students' intake and research work. The equipment and the project vehicle which forms part of the entire ACEDHARS project would alleviate the shortages currently affecting the growth and objectives of the establishment of the Centre and would boost **excellence in ACEDHARS at the Centre and the country in general;**
 - f. **Justification for Selective Tendering/Direct Sourcing from Manufacturers:** Considering the essence of time in these procurement in which if advertised could cause delay and the fund could be taken back by the sponsor (World Bank) due to lack of fund utilization by the Centre, the University wishes to adopt the selective tendering method in engaging competent vendors to execute these projects.
 - g. Given the fact that the project is result based, hence money can only be earned when disbursement Link Indicators (DLIs) are met and achieved, the World Bank may decline further funding of the project if the Centre is not meeting the Disbursement Linked Indicators (DLI) for which the project was conceived. Therefore, it has become imperative to adopt the Selective Tendering procedure for the University to meet the DLI and in line with the provision of Section 40(b&c) of the Public Procurement Act 2007.

- h. Also, due to the COVID 19 Pandemic which has been ravaging the world over thus, gathering of persons and representatives of companies to the bid opening exercise would not be a good idea if we must avoid close contact.
- i. Considering the time scheduled for the World Bank's Mid Term review visit in November, 2022 to the Centre, and the specialized nature of this procurement, adopting open competitive tendering at this point will be counter-productive to the center and may automatically lead to risk of withdrawing the money earmarked for this procurement by the World Bank. For these reasons, the University is appealing to you to use your good office to approve the adoption of selective tendering method for the procurement of specialized research equipment and vehicle as an exception rather than the norm in line with the provision of section 40 1(c) of the public procurement act 2007 using the original Equipment Manufacturer Authorized representatives.
- j. The Project will be funded from World Bank Support Fund. Attached is the Performance and Funding Agreement between the National Universities Commission and University of Lagos with funding from the International Development Association (IDA).
- k. **Knowledge and Cognate Experience:** It is imperative that competent firms with cognate experience and good track records are chosen. The shortlisted companies are representatives of equipment manufacturers in Nigeria to be engaged to deliver in terms of quality and timing while also offering competitive price so as to obtain value for money. The University has identified some companies that have previous business with Federal Government of Nigeria which provides the advantage of having adequate knowledge of the assignment and has proven speedy completion of the projects while ensuring quality. The companies that meet up with the requirement of the provisions of section 16(6)(d) of the PPA, 2007 that can do business with Federal Government of Nigeria to effectively carry out the implementation of these projects are as detailed below.

PROCUREMENT / INSTALLATIONS OF RESEARCH AND LABORATORY EQUIPMENT

- i. **Proposal and Profile:** Please find attached profiles of the companies upon which Certificate of "No Objection" for Selective Tendering is sought alongside the following supporting documents for ease of reference:
- Memorandum of Understanding between National Universities Commission (NUC) and Federal University of Lagos;
 - The Center's approved and cleared work plan and procurement plan;
 - The Funding/Loan Agreement; and
 - Project Appraisal Document (PAD)."
3. The Bureau has carefully reviewed the UNILAG's request of September 27, 2022 and noted that the UNILAG intends to procure 4No. Projects for African

Centre of Excellence for Drug Research, Herbal Medicine Development and Regulatory Science (ACEDHARS) through the adoption of Selective Tendering Method of Procurement.

4. The attention of the UNILAG is drawn note to the conditions which govern Special and Restricted Method of Procurement as stipulated under Section 40(1) of the Public Procurement Act (PPA), 2007, states that: a procuring entity may for reasons of economy and efficiency engage in procurement by means of Restricted Tendering Method of Procurement. The applicable relevant clauses are as follows:

- (a) *the goods, works or services are available only from a limited number of suppliers or contractors;*
- (b) *the time and cost required to examine and evaluate a large number of tenders is disproportionate to the value of the goods, works or services to be procured; or*
- (c) *The procedure is used as an exception rather than norm.*

5. Considering the directive of the SGF's Circular with Ref. No. SGF.OP/I/S.3/VIII/250 dated April 12, 2011 that locally assembled vehicle manufacturers be patronized instead of foreign vehicles where there are close substitutes and bearing in mind Section 40(1)(a) of the PPA, 2007 the request of the UNILAG satisfies the conditions for the adoption of **Selective Tendering Procurement Method** for the procurement of 18-seater bus;

6. Furthermore, bearing in mind the Federal Government Policy and Strategy of engaging only OEM/Authorised Representatives, in which MDAs are requested to procure equipment from OEM/Authorised Representatives that will provide the requisite guarantees and after sales maintenance services from operation of the equipment, the request of the University for the adoption of **Selective Tendering Procurement Method** for the procurement of Lots 1, 2 and 3 can be considered in line with the Federal Government Policy on Procurement of Equipment from Original Equipment Manufacturers (OEM).

7. The University furthermore stated that the reason for the request to adopt Selective Tendering Procurement Method is due to the scheduled World Bank's Mid Term review visit in November, 2022 to the Centre, and the specialized nature of the procurements whereby adopting open competitive tendering at this point will be counter-productive and may automatically lead to risk of withdrawing the money earmarked for this procurement by the World Bank.

8. A search in the Bureau's Database shows that the UNILAG has not uploaded its 2022 Procurement Plans and 2021 Procurement Records using the Nigeria Open Contracting Portal (NOCOPO) accessible on the Bureau's website www.bpp.gov.ng (nocopo.bpp.gov.ng) in line with the directive in the SGF's

Circular with Ref. No. PROC/OSGF/BPP/709/89 dated 19th January 2022. The UNILAG should therefore without further delay, upload the required documents accordingly.

9. The UNILAG stated that they solicited and obtained company profiles for the Project for African Centre of Excellence for Drug Research, Herbal Medicine Development and Regulatory Science (ACEDHARS) and forwarded profiles for only Lots 1 and 3 to the Bureau and did not evaluate the company profiles. The University did not forward the company profiles for Lots 2 and 4.

10. The above notwithstanding, the Bureau subjected the profiles of the companies to independent review to confirm and ensure that the companies meet all the eligibility responsive requirements as stipulated in Section 16(6) of the Public Procurement Act, 2007 and SGF's Circular No. SGF/50/S.52/II dated 11th December, 2014. The SGF's Circular referred to above states that only firms that have registered in the Bureau's National Database for Registration, Categorization and Classification of Federal Contractors, Consultants and Service Providers with evidence of Interim Registration Report (IRR) issued by the Bureau are qualified to do Federal Government Contracts. The outcome of the Bureau's review is as shown in Table 10 below.

11. Arising from the outcome of Bureau's Independent evaluation of the UNILAG's submission, it was discovered that:

- a. Company profiles for Lots 2 and 4 were not forwarded to the Bureau for review. Consequently, the UNILAG should invite minimum of five (5)

unrelated responsive companies with cognate experience to bid for each of the Lots;

- b. All the shortlisted companies in Lot 1 and 3 are responsive to the eligibility/mandatory criteria as stipulated in Section 16 (6) of the Public Procurement Act (PPA), 2007, and can proceed to the financial stage of the procurement process.

12. The University of Lagos (UNILAG) attached a photocopy of an extract of the World Bank ACE Grant in the sum of \$469,000.00 (₦197,486,520) for the purchase of new Laboratory/Research Equipment and \$75,559.19 (₦31,281,426.00) for the purchase of project vehicle as evidence of source of funding for the projects.

13. In view of the foregoing Due Process "No Objection" **cannot be** granted to the University of Lagos (UNILAG) to adopt Restricted/Selective tendering Method to procure Laboratory/Research Equipment and project vehicle for African Centre of Excellence for Drug Research, Herbal Medicine Development and Regulatory Science (ACEDHARS) as requested.

14. However, On the strength of the submissions by the UNILAG and on the ground that the procedure is used as an exception rather than norm in line with Section 40(1)(c) of the Public Procurement Act (PPA), 2007 Due Process "No Objection" **can be** granted to the University of Lagos (UNILAG) to adopt Restricted /Selective tendering Method to procure Laboratory/Research Equipment and project vehicle for African Centre of Excellence for Drug Research, Herbal Medicine Development and Regulatory Science (ACEDHARS) in favour of the company in Table 14 below.

INTRODUCTION

This Tender Document for the Procurement of Goods has the following contents:

- IFT** **Invitation for Tender (IFT):** This is a repeat of the IFT which was published in the media and on the website of the Procuring Entity announcing the Tender and providing the essential information to prospective Tenderers to invite them to participate. It is reprinted here for reference purposes only
- Section 1** **Instructions to Tenderers (ITT):** The ITT are standard instructions which guide the Tenderers how to prepare their tenders. Standard instructions mean that they cannot be modified by the Procuring Entity. The ITT are based on the Procurement Law and the Regulations for Goods and Works, from which the procedures for tender submission, opening, evaluation and Contract award have been derived. They clarify the general evaluation criteria for the selection of the lowest evaluated responsive tenderer and describe the basic qualifications of the Tenderer needed for contract execution. This Section cannot be changed under any circumstances.
- Section 2** **Special Instructions to Tenderers (SIT).** In this Section the Procuring Entity supplements or adapts the relevant clauses of the ITT to the specific tender information or project requirements where needed (name of the Procuring Entity, tender submission date, specific evaluation criteria, amount of tender security, tender validity period, alternative tenders permitted or not, fixed price contract or contract subject to price adjustment, goods delivery schedule, domestic preference applies or not, level of performance security to be provided at contract signature, etc. Modifications to the Instructions to Tenderers using special Instructions to Tender to make them more specific cannot change the Law or the Regulations .
- Section 3** **General Conditions of Contract (GCC).** The GCC define the conditions of contract for Goods in Nigeria and are also based on the Procurement Law and the Regulations for Goods and Works. Like the ITT, the GCC cannot be modified or adapted by the Procuring Entity except through the Special Conditions of Contract (SCC).
- Section 4** **Special Conditions of Contract (SCC).** The SCC supplements or adapts the relevant clauses of the GCC to the specific requirements of the Contract (in particular with respect to the starting date, description of the Goods, insurance requirements, percentage of advance payment, payment schedule, interest for payment delays, price adjustment formula, performance security, percentage of performance guarantee, warranty and repair/replacement conditions, liquidated damages, inspections and tests, arbitration rules, etc
- Section 5** **Standard Tender and Contract Forms.** This Section provides the standard format for the **Tender Submission Sheet (Form G-1), Price Schedule (Form G-2), Specifications Submission Sheet (Form G-3), Tenderer Information Sheet (Form G-4), Manufacturer's Authorization Letter (Form G-5) and Tender Security (Form G-6)** to be submitted by the Tenderer.
- This Section also contains the form of the **Notification of Award (Form G-7)** and the **Contract Agreement (Form G-8)** which, when completed,

incorporates any corrections or modifications to the accepted Tender relating to amendments permitted by the Instructions to Tenderers, the General Conditions of Contract (GCC), and the Special Conditions of Contract (SCC).

The forms for **Performance Security (Form G-9)** and **Advance Payment Security (Form G-10)** (when required) are to be completed by the successful Tenderer after Contract award and these forms must be submitted by the successful Tenderer as a condition of contract signature.

- Section 6** **Schedule of Requirements:** provides the List of Goods and Delivery Schedule and the List of Related Services and Completion Schedule and must be carefully prepared by a Procuring Entity for each object of procurement.
- Section 7** **Technical Specifications:** describe the Goods and Related Services to be procured. These are a prerequisite for tenderers to respond realistically and competitively to the requirements of the Procuring Entity. They must present a clear statement of the required standards of workmanship, materials, goods and related services, in order to achieve the principles of sound public procurement (efficiency, economy, fairness and transparency) and it is essential for the Tenderer to provide this information with great diligence if it wants to succeed in a fair evaluation.
- Section 8** **Particular Specifications:** This Section provides further details on special requirements for the Works and modifies or clarifies any General Technical Specifications.
- Section 8** **Drawings:** This Section contains any drawings that supplement the specifications.

Section 1. Instructions to Tenderers

A. General

1. Scope of Tender of 1.1 The Procuring Entity, as indicated in the Special Instructions to Tenderers (SIT), issues this Tender Document for the supply of Goods, and Related Services incidental thereto, as specified in the SIT and as detailed in Section 6: Schedule of Requirements. The name of the Tender and the number and identification of its constituent lot(s) are stated in the SIT.
 - 1.2 The successful Tenderer will be required to complete the delivery of the goods and related services (when applicable) as specified in the Special Conditions of Contract (SCC).
 - 1.3 Throughout this Tender Document:
 - (a) the term “in writing” means communicated in written form with proof of receipt;
 - (b) if the context so requires, singular means plural and vice versa; and
 - (c) “day” means calendar day.
2. Source of Funds of 2.1 The Procuring Entity has been allocated public funds as indicated in the SIT and intends to apply a portion of the funds to eligible payments under the contract for which this Tender Document is issued.
 - 2.2 For the purpose of this provision, “public funds” means any monetary resources appropriated to Procuring Entities under Government budget, or revenues generated by statutory bodies and corporations or aid grants and credits put at the disposal of Procuring Entities by the development partners through the Government.
 - 2.3 Payments by the development partner, if so indicated in the SIT, will be made only at the request of the Government and upon approval by the development partner in accordance with the applicable Loan/Credit/Grant Agreement, and will be subject in all respects to the terms and conditions of that Agreement.
3. Corrupt, Fraudulent, Collusive, Coercive or Obstructive Practices of 3.1 The Government requires that all parties involved in public procurement, including Procuring Entities, Tenderers, Suppliers, Contractors, and Consultants, shall observe the highest standard of ethics during the implementation of procurement proceedings and the execution of contracts under public funds.
 - 3.2 In pursuance of this requirement, the Procuring Entity shall:
 - (a) exclude the Tenderer from further proceeding in the procurement of the contract or reject a proposal for contract award, and/or
 - (b) declare a Tenderer ineligible, either indefinitely or for a stated period of time, from participation in procurement proceedings under public funds;
 - (c) have the right to require that a provision be included in bidding documents, requiring bidders, suppliers and contractors to permit the relevant authorities to inspect their accounts and records and other documents relating to the bid submission and contract performance and to have them audited by auditors appointed by the relevant authorities.
